1. "Drug cue induced overshadowing: Selective disruption of natural reward processing by cigarette cues amongst abstinent but not satiated smokers": Corrigendum.	page 5
2. A study of patient variables that affect completion of a substance abuse intensive outpatient program (IOP).	page 5
3. The experience of having a mother with a crack-cocaine substance abuse disorder.	page 5
4. Treatment utilization and help-seeking among substance dependent incarcerated women: Re-examining the relationship of prior abuse and trauma experiences.	page 6
5. Substance abuse proclivity and personality traits.	page 6
6. The effects of anxiety sensitivity, executive function, and expectancy on substance use.	page 6
7. The use of motivational interviewing within school counseling programs with academically unmotivated eighth grade students.	page 6
8. How transnational couples deal with teen substance use: A socio-contextual view.	page 7
9. The relationship of leadership styles and organizational commitment among substance abuse counselors.	page 7
10. A dynamic stochastic model of lifetime smoking behavior.	page 7
11. Web-based, psychosocial treatment for substance use disorders in community treatment settings.	page 8
12. Assessing daily fluctuations in posttraumatic stress disorder symptoms and substance use with interactive voice response technology: Protocol compliance and reactions.	page 8
13. Interactive voice response for relapse prevention following cognitive-behavioral therapy for alcohol use disorders: A pilot study.	page 9
14. A computational model for dynamics of desiring and feeling.	page 9
15. Cardiovascular toxicity of novel psychoactive drugs: Lessons from the past.	page 9
16. An addictive environment: New Zealand film production workers' subjective experiences of project-based labour.	page 9
17. Black holes: Some notes on time, symbolization, and perversion in the psychodynamics of addiction.	page 10
18. Measurement of sexual identity in surveys: Implications for substance abuse research.	page 10
19. "Induction of morphine-6-glucuronide synthesis by heroin self-administration in the rat": Erratum.	page 11
20. Cue exposure and response prevention with heavy smokers: A laboratory-based randomised placebo-controlled trial examining the effects of D-cycloserine on cue reactivity and attentional bias.	page 11
21. Induction of morphine-6-glucuronide synthesis by heroin self-administration in the rat.	page 12
22. Effects of a <i>Rhodiola rosea</i> L. extract on the acquisition, expression, extinction, and reinstatement of morphine-induced conditioned place preference in mice.	page 12
23. Self-control, opportunity, and substance use.	page 13
24. Etiology of food addiction.	page 13
25. Circadian discrimination of reward: Evidence for simultaneous yet separable food- and drug-entrained rhythms in the rat.	page 14
26. Benefits and costs of substance abuse treatment programs for state prison inmates: Results from a lifetime simulation model.	page 14
27. GABA site agonist gaboxadol induces addiction-predicting persistent changes in ventral tegmental area dopamine neurons but is not rewarding in mice or baboons.	page 15

28. "Anabolic androgenic steroid abuse: Multiple mechanisms of regulation of GABAergic synapses in neuroendocrine control regions of the rodent forebrain": Erratum.	page 15
29. An oxycodone conjugate vaccine elicits drug-specific antibodies that reduce oxycodone distribution to brain and hot-plate analgesia.	page 16
30. Microinjection of glycine into the ventral tegmental area selectively decreases ethanol consumption.	page 16
31. Melatonin and its analogs in insomnia and depression.	page 17
32. The brief alcohol intervention.	page 17
33. Addiction to power. Notes for a psychoanalytic political science.	page 18
34. Obesity and public policy.	page 18
35. Neuroplasticity in cigarette smokers is altered under withdrawal and partially restituted by nicotine exposition.	page 18
36. Effects of cocaine on maternal behavior and neurochemistry.	page 19
37. Therapeutic potential of metabotropic glutamate receptor modulators.	page 19
38. Striatal dopamine D1 and D2 receptors: Widespread influences on methamphetamine-induced dopamine and serotonin neurotoxicity.	page 20
39. D-cycloserine facilitates extinction of cocaine self-administration in c57 mice.	page 20
40. Attenuated methamphetamine induced neurotoxicity by modafinil administration in mice.	page 21
41. Effects of food restriction and sucrose intake on synaptic delivery of AMPA receptors in nucleus accumbens.	page 21
42. The Dutch Cannabis Dependence (CanDep) study on the course of frequent cannabis use and dependence: Objectives, methods and sample characteristics.	page 22
43. Otx genes in neurogenesis of mesencephalic dopaminergic neurons.	page 22
44. Patterns of mental health, substance abuse, and justice system involvement among youth aging out of child welfare.	page 23
45. Correlates of street-survival behaviors in homeless young adults in four U.S. Cities.	page 23
46. Developmental associations between externalizing behaviors, peer delinquency, drug use, perceived neighborhood crime, and violent behavior in urban communities.	page 24
47. Violent, nonviolent, and substance-related offending over the life course in a cohort of males and females treated for substance misuse as youths.	page 24
48. A case of sexual addiction.	page 25
49. Attentional bias in psychopathology.	page 25
50. Virtual reality in psychotherapy.	page 25
51. "This body (of mine), to whom does it belong?": Metapsychological and clinical considerations on drug addiction.	page 26
52. Cue exposure treatment and coping skills training as adjuvant therapies in the management of craving in a crack cocaine addiction.	page 26
53. A randomized, controlled trial of a school-based intervention to reduce violence and substance use in predominantly Latino high school students.	page 27
54. Misperceptions of nicotine replacement therapy within racially and ethnically diverse smokers.	page 27
55. Linking early brain and biological development to psychiatry: Introduction and symposia review.	page 27
56. Gottman method couple therapy: From theory to practice.	page 28
57. Cannabis - Consumption patterns and cannabis-related disorders in adolescents and young adults - epidemiology, diagnostics, comorbidity, and treatment.	page 28
58. Five minutes a day: Compass - a short psychotherapeutic intervention for young cannabis-party drug inpatients.	page 29

59. Trainer effects in a group training for young cannabis consumers - Results of the multisite trial "CAN Stop." page 29

60. Design of the CANDIS study for the treatment of cannabis use disorders: An example of translational research. page 30

61. Screening for SUD by the RAFFT in adolescents and young adults. page 31
